1. check requirments.
2. Install it.

   ```
   pip install sorl-thumbnail
   ```
3. Add "`sorl.thumbnail`" in setting.INSTALLED_APPS.
4. Put "`{% load thumbnail %}`" first template page.
5. And use this way for loading images.

   ```
   {% thumbnail item.image geometry as im %}
           <img src="{{ im.url }}">
   {% endthumbnail %}
   ```
